BESCHRIJVING

De armkussens liggen onderaan los op het zitkussen maar hangen bovenaan vast aan de armleuning, waardoor ze er lijken uit voort te vloeien. Dit bijzondere detail wordt geaccentueerd door de bies die van onderaan de armleuningen over de kussens loopt. De losse rugkussens en het royaal dikke zitkussen met hun losse stoffering bieden extra comfort. De smalle plint maakt het geheel evenwichtig en licht. De aansluitende poot uit plat staal is bijzonder slank aan de voorzijde en onderstreept in zijaanzicht de arm. Hierdoor zweeft de onderkant van de zetel hoog boven de grond, wat goed licht doorlaat. De poot kan gelakt worden in een kleur naar keuze, wat de sofa een unieke, persoonlijke uitstraling kan geven: van een neutraal toon op toon tot contrasterende of fellere kleuren. Er is ook een bijhorende voetbank met hetzelfde onderstel beschikbaar en een optionele hoofdsteun.
